1 Requirements

This document details all the steps required to deploy the CTX-Oracle-WebLogic module.

Requirements:

- Administration rights on Cortex Gateway
- Minimum Cortex v6.5 Installed on the Cortex Server

2 Import CTX-Oracle-WebLogic

To deploy the CTX-Oracle-WebLogic module on your Cortex system, the CTX-Oracle-WebLogic Studio Package needs to be imported on your Cortex system. To do this:

- Download the CTX-Oracle-WebLogic Studio Package
- Import the Studio Package in Cortex Gateway
- Ensure the relevant users have the required permissions in 'Studio Authorisation'

After this, all users in the authorised groups will be able to view and execute the subtasks.
